Unit 694 Repairing roof sheeting and cladding systems in the workplace

20 credits

Level: 2
UAN: Y/600/7050

Unit aim:
This unit aims to provide you with the necessary skills and knowledge to:

- interpret information
- adopt safe and healthy working practices
- select materials, components and equipment
- repairing defects in existing roof sheeting and cladding work.

*PER – Portfolio evidence reference SO – Site observation OQ – Oral question WQ – Written question WT – Witness testimony
PS – Product supplementary PD – Professional discussion

Assessment criteria that are practical activities are highlighted in bold.

1. Interpret the given information relating to the work and resources when repairing roof sheeting and cladding systems.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
1.1 **interpret and extract information from:**							
a. **drawings**							
b. **specifications**							
c. **schedules**							
d. **manufacturers' information**							
1.2 **comply with information and/or instructions derived from risk assessments and/or method statement**							
1.3 state the organisational procedures developed to report and rectify inappropriate information and unsuitable resources and how they are implemented							

1.4 describe different types of information, their source and how they are interpreted in relation to:							
a. drawings							
b. specifications							
c. schedules							
d. manufacturers' information							
e. regulations governing buildings							
f. oral/written procedures for dealing with damaged or incorrect materials and/or resources and site induction.							

2. Know how to comply with relevant legislation and official guidance when repairing roof sheeting and cladding systems.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
2.1 describe your responsibilities under current legislation and official guidance whilst working:							
a. in the workplace							
b. at height							
c. with tools and equipment							
d. with materials and substances							
e. with movement/storage of materials							
f. by manual handling and mechanical lifting							
g. with mechanical access equipment							
2.2 describe the organisational security procedures for tools, equipment and personal belongings in relation to:							
a. site							
b. workplace							
c. company							
d. operative							
2.3 state what the accident reporting procedures are and who is responsible for making reports.							

3. Maintain safe working practices when repairing roof sheeting and cladding systems.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
3.1 **use Personal Protective Equipment (PPE) and access equipment safely to carry out the activity in accordance with legislation and organisational requirements when repairing roof sheeting and cladding systems**							
3.2 explain why and when Personal Protective Equipment (PPE) should be used, relating to repairing roof sheeting and cladding systems, and the:							
a. types							
b. purpose							
c. limitations of each type							
3.3 state how emergencies should be responded to in accordance with organisational authorisation and personal skills when involved with:							
a. fires							
b. spillages							
c. injuries							
d. falls							
e. rescue procedures							
f. other task-related hazards.							

4. Select the required quantity and quality of resources for the methods of work to repair roof sheeting and cladding systems.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
4.1 describe the characteristics, quality, uses, limitations and defects associated with the resources in relation to:							
a. mechanical fixings and fasteners							
b. flashings							
c. fittings							
d. insulation							
e. sealers and fillers							
f. metal and translucent sheets							
g. composite panels							
h. fibre cement systems							
i. condensation and vapour control							
j. related materials and components							
k. hand and/or powered tools and equipment							
4.2 **select resources associated with own work in relation to:**							
a. **materials**							
b. **components**							
c. **fixings**							
d. **tools**							
e. **equipment**							
4.3 state how the resources should be used correctly, how problems associated with the resources are reported and how the organisational procedures are used							
4.4 outline potential hazards associated with the resources and method of work							
4.5 describe how to calculate:							

a. quantity							
b. length							
c. area							
d. wastage associated with the method/procedure to repair roof sheeting and cladding systems.							

5. Minimise the risk of damage to the work and surrounding area when repairing roof sheeting and cladding systems.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
5.1 **protect the work and its surrounding area from damage**							
5.2 **minimise damage and maintain a clean work space**							
5.3 describe how to protect work from damage and the purpose of protection in relation to:							
a. general workplace activities							
b. other occupations							
c. adverse weather conditions							
5.4 **dispose of waste in accordance with legislation**							
5.5 state why the disposal of waste should be carried out in relation to the work.							

6. Complete the work within the allocated time when repairing roof sheeting and cladding systems.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
6.1 **demonstrate completion of the work within the allocated time**							
6.2 state the purpose of the work programme and explain why deadlines should be kept in relation to:							
a. types of progress charts, timetables and estimated times							
b. organisational procedures for reporting circumstances which will affect the work programme.							

7. Comply with the given contract information to repairing roof sheeting and cladding systems to the required specification.							
You must be able to:	*PER	SO	OQ	WQ	WT	PS	PD
7.1 **demonstrate the following work skills when repairing roof sheeting and cladding systems:**							
a. **removing**							
b. **replacing**							
c. **renewing**							
d. **making good**							
7.2 **identify and repair defects in roof sheeting and cladding to contractor's working instructions for:**							
a. **roof leaks/condensation**							
b. **damaged sheets and components**							
c. **minor surface coating defects**							
d. **damaged or missing flashings**							
7.3 describe how to apply safe work practices, follow procedures, report problems and establish the authority needed to rectify them, to:							
a. identify defects							
b. remove or recover defective materials							
c. carry out repairs to sheet components							
d. repair coating defects							
e. prevent water leaks and condensation							
f. check quality and suitability of work on completion or at the end of the day							
g. use hand tools, power tools and equipment							
h. work at height							
i. use of access equipment							
7.4 **safely use and store:**							
a. **hand tools**							

b. **portable power tools**							
c. **ancillary equipment**							
7.5 state the needs of other occupations and how to communicate within a team when repairing roof sheeting and cladding systems							
7.6 describe how and when to maintain the tools and equipment used when repairing roof sheeting and cladding systems.							

Unit 694 Repairing roof sheeting and cladding systems in the workplace

Declaration

I confirm that the evidence supplied for the above unit is authentic and a true representation of my own work. The work logged is my own work carried out during my normal work duties.

Candidate name:	
Candidate signature:	
Date:	

I confirm that this candidate has achieved all the requirements of this unit with the evidence listed. Assessment was conducted under the specified conditions and context, and is valid, authentic, reliable, current and sufficient.
