Total marks	
Task	**Mark**
1	12
2	7
3	12
Total	31

Length of assessment: 1 hour 30 minutes

You should have the following for this assessment

- a pen with black or blue ink
- a pencil and eraser
- a 30cm ruler
- graph paper
- a calculator
- a protractor.

- You may use a dictionary.

General instructions

- There are **3** tasks to complete.
- Each task is worth 15 marks.
- You should spend an equal amount of time on each task.
- Read through each task carefully.
- Show your working out. You may get marks for it.
- Check your calculations.
- Remember to put units on your answers.
- Write all working out and answers in this booklet.

Task 1 Minibus to the airport

There are **15** marks available for this task.

Introduction
This task is about booking a minibus to go to the airport.

You and seven friends are going on holiday. You will all fly from Hartford Airport.

You tell your friends

> We can get a minibus to take us to the airport and bring us back after the holiday.

You find this information on the internet.

E-travel airport minibuses Book your minibus to and from the airport Our charge = £75 for the first 75 miles of **each** journey + £1.90 for **each mile** over 75 miles.

Your journey	**Home to Hartford Airport**		
Distance:	**112 miles**	Time to drive:	**2 hours 20 minutes**

1A
How much will E-travel charge for the **two** journeys in **total**?

Show your working
75 miles = £75 ×2
37 miles = £70.30 ×2
112 - 75 = 37

Total charge £ 290.60

(4 marks)

1B

You and your friends will share the cost equally.
How much will each person pay for their share of the **two** journeys?

Show your working
£290 60 ÷ 8 = 36.325

Each person pays £ 36.32

(3 marks)

1C

You and your friends **must** be at the airport **2 hours** before the flight is due to leave.
Your flight is due to leave at 21:25

What time **must** the minibus leave your house?

Show your working
2:20 + 2 = 4:20
21:25 − 4:20

Time for minibus to leave 17:05

(2 marks)

1D

Give one reason why you chose that time for the minibus to leave your house.

THE drive to Air Port is 2hours 20 min

(1 mark)
0 marks

1E

Draw a table to show your friends all the information you have found out.

Include the total charge for the minibus travel, how much each of you will pay and what time the minibus will leave.

minibus total cost	minibus cost each	minibus leave time
£290.60	£36.33	17:05

(3 marks)

1F

Choose one of your calculations in **1A** or **1B** to show a check.

Check it by a **different** method to the one you used originally.
You can use approximation, a reverse calculation or any other suitable different method.

The calculation I am going to check is in **1A** ✓ **1B** ☐
(Tick one box)

Write your check here 112 − 75 = 37 ✗

Task 2 Tomato plants

There are **15** marks available for this task.

Introduction
This task is about growing tomatoes.

You want to grow tomato plants in a vegetable plot in your garden.

2A
The plot measures 7m by 2m
Draw a scale diagram of the plot.

You want to fit in as many tomato plants as possible.
The plants must be 50cm gap from the edges of the plot.

Planting instructions

Put the plants in rows.

Leave a 50cm gap between plants.

Mark on your diagram where you will put each plant.
Use a cross (X) to show the centre of each plant.

Label the diagram.

(~~8~~ marks) 4

Use the graph paper on the opposite page.

Space for working out

7 × 4 = 28

2B

How many tomato plants will fit into the plot in total?

Number of plants 28 ✓

ft

(1 mark)

2C

You should get between **12kg and 20kg** of tomatoes from **three** tomato plants.

Estimate the total weight of tomatoes you can get from all your plants.

Show your working 32kg × 28 = 896 ÷ 3 =

Total weight of tomatoes 298.67

~~(2 marks)~~
0 marks

2D
The local farm shop offers to buy your tomatoes for 95p a kilogram.
You agree to sell half of your tomatoes.

How much money will you get from selling these tomatoes?

Show your working ft 298.67 ÷ 2 = 149.34
149.34 × 95 =

Total money from selling the tomatoes £ 141.55

(2 marks)

2E
You need to show a check of how you used the scale at **2A**.
Explain how you know one of the lines on your diagram is the correct scaled length.

Write your check here
1m scale ~~was~~ 1½ cm

Task 3 Car repair service

There are **15** marks available for this task.

Introduction
This task is about the time it takes car mechanics to get to customers when their cars break down.

The company's target is to get to **95%** of customers in 40 minutes or less.

Information about breakdowns in June

Mechanic	Total number of breakdowns mechanic went to	Mechanic late to breakdowns	
		Number of times late	Number of minutes late
Joe	42	1	7
Paul	39	4	5, 12, 15, 7
Liam	45	1	45
Sam	52	2	5, 8
Yas	41	3	10, 7, 5
Dev	48	1	6
Tariq	43	3	15, 22, 40
Dean	50	1	15

3A
You look at the information about breakdowns in June.
How many customers had to be reached on time to meet the target?

Show your working. 360 - 95%.

Number of customers 342

(3 marks)

3B

What is the total number of customers reached **on time** in June?

Show your working 42+39+45+52+44+48+43+50 =360 ✓

360 − 16 =

Total number on time this month 344 ✓

(1 mark)

3C

Was the 95% target met in June?

Give a reason for your answer.

yes 360 customers met

344 on time

342 Target ✓

(1 mark)

3D

Look at the breakdowns when the mechanics were late.

What is the mean number of minutes late per breakdown?

Show your working. 224 ÷ 7 ×

Mean 28 ×

(~~3~~ marks)

0 marks

In **May** mechanics were late to 18 breakdowns.
The mean time late to these breakdowns was 9 minutes.

3E
Draw a chart to compare the mean number of minutes late per breakdown in May and June.

(4 marks)

3F

Explain what your chart shows about the means for May and June.

There is a rise in runs late in June. ✓

(1 mark)

3G

Choose one of your calculations from **3B** or **3D** to show a check.

Check it by a **different** method to the one you used originally.
You can use approximation, a reverse calculation or any other suitable different method.

The calculation I am going to check is in (Tick the box) | **3B** [ ] | **3D** [✓]

Write your check here 28 × 8 = 224 ✓

(2 marks)
