# Unit assessment overview Practical task completion record

# To be completed by Assessor:

All tasks must be passed for the unit to be achieved.

## Unit 211 Set up and operate a circular saw

Task	Grade for task
1 Change circular saw blades and cut timber and manufactured boards	P/X
End of unit knowledge test	P/X

Assessor signature and date:	Candidates must pass the task, and the end of unit knowledge test, for this unit to achieve a pass grade overall.	
	Overall grade	

# Unit 240 Manufacture internal shopfitting joinery products

Task	Grade for task	
1 Set out a display stand	P/X	
2 Manufacture, assemble and finish a display stand	P/M/D/X	
End of unit knowledge test	P/X	

Assessor signature and date:	The overall grade will be the same as the single graded task in this unit.	
	Overall grade	

# Unit 241 Manufacture external shopfitting joinery products

Task	Grade for task
1 Set out a shopfront	P/X
2 Manufacture, assemble and finish a shopfront	P/M/D/X
End of unit knowledge test	P/X

Assessor signature and date:	The overall grade will be the same as the single graded task in this unit.	
	Overall grade	

# Authenticity and IQA/QC sampling

The assessor's signature on individual tasks will be taken as assurance that the judgements recorded are made on authentic candidate work produced under appropriate conditions. Please complete the declaration below to confirm this is the case.

I confirm that all tasks were conducted under conditions designed to assure the authenticity of the candidate's work, and am satisfied that, to the best of my knowledge, the work assessed was solely that of the candidate.			
I have judged all assessments against the relevant assessment and grading criteria and award the candidate the unit grades as calculated above.			
Assessor signature	Date		
*IQA signature and date	*QC signature and date		

<sup>\*</sup>IQA and QC signatures attest to the evidence available on the recorded date(s).

#### Instructions to candidates

#### **About this document**

This *Practical task manual* contains all of the practical assessment for the 6806-27 Diploma in Shopfitting Joinery at SCQF Level 5.

#### **Practical tasks**

These tasks let you show your practical skills and are usually graded pass, merit or distinction – a few are pass only. These tasks will be assessed by your assessor watching how you carry out the tasks and checking your final pieces of work.

Before you carry out the task you will be told how it will be assessed and you should read the observation checklist at the end of each task so you know what you need to do to get each grade.

You can ask your assessor for help in understanding the task instructions, but all of the work must be your own.

#### Health and safety

You must use safe working practices at all times.

You are responsible for your own safety and the safety of others. If you behave in an unsafe way, you will be stopped and given a warning. If you do not meet all of the Health and Safety requirements, the assessment will be stopped. Your assessor will not be able to let you try the task again until they are sure you can work safely.

#### Time considerations

Each task shows how long it is likely to take. This is for guidance and so you can plan your work. If you have a good reason for needing more time you must explain this to your assessor as soon as possible so they can decide whether you can have more time.

#### Security

Where an assignment is taken over more than one session, all documentation, paperwork and work products must be labelled carefully with your name and kept securely at the centre. Your assessor will give you directions about how to leave your work.

#### **Opportunities to repeat tasks**

The tasks are 'end tests' so you will only be asked to take the assessment when you have had the chance to do all of the learning and practice you need. You will be able to try the whole task again if you do not pass, but you will not be able to take the assessment again just to try to get a better grade.

#### **Feedback**

As well as telling you the result for the task, your assessor will give you feedback. They will give you a feedback sheet with details of what you could do to improve, and also what you did well. This will help you to prepare for other assessments or to retake the assessment if you need to.

# Unit 211 Set up and operate a circular saw

# Task 1 Change circular saw blades and cut timber and manufactured boards

#### Task coversheet

Expected time	3 hours				
Task instructions	Complete a risk assessment				
	Change the blade on a cirular saw.				
	Set up a circular saw ready for use.				
	<ul> <li>Rip a section of timber with a circular saw as shown in Figures 1 at 2.</li> </ul>				
	Cut board material as shown in Figure 4				
Diagrams	Figure 1 Rip cuts page 16				
	Figure 2 Rip cuts measurement detail page 17				
	Figure 3 45° rip cut saddle 18				
	Figure 4 Tapered cut page 19				

AC	The candidate has	Pass	Merit	Distinction
3.1 6.1	completed the risk assessment form accurately, to meet current health and safety legislation			
3.2 3.3 3.4 6.2	followed the sequence for changing circular saw blades using manufacturers' tools in accordance with their instructions and current legislation			
0.2	isolated machine before proceeding			
	<ul> <li>removed guarding, riving knife and saw blade safely and without damage</li> </ul>			
	cleaned machine down			
	<ul> <li>checked replacement blade prior to fitting for correct type and sharpness</li> </ul>			
	<ul> <li>saw blade seating and cutting direction correct</li> </ul>			
	<ul> <li>tightened blade in accordance with manufacturer's instructions</li> </ul>			
	<ul> <li>set riving knife as per current legislation (ACoP)</li> </ul>			
	replaced guarding/ancillary components			
	checked blade for free rotation			
	<ul> <li>checked machine for faults before reconnecting machine</li> </ul>			
6.4	set guards according to current legislation (ACoP)			

AC	The candidate has	Pass	Merit	Distinction
6.3	identified timber defects			
6.5 6.6 6.7	<ul> <li>timber appropriately fed in relation to any cupping, bowing or dead knots</li> </ul>			
	set fences, adjust saw blades and cut material in accordance with Figures 1-4			
	timber cut as in Figures 1 and 2			
	<ul> <li>sections A and B dimensioned within</li> <li>1 mm in accordance with Figure 2</li> </ul>			
	<ul> <li>square timber for sections C and D brought to 45 mm wide within 1 mm</li> </ul>			
	<ul> <li>sections C and D dimensioned in within 1 mm using saddle, in accordance with Figure 2</li> </ul>			
	<ul> <li>ensured wedge jig handle is sufficiently long to keep hands at least 300 mm away from blade</li> </ul>			
	<ul> <li>tapered cut to dimensions within 1 mm in accordance with Figure 4</li> </ul>			
6.8	followed current environmental and relevant health and safety legislation relating to changing circular saw blades and cutting of timber and manufactured boards. This includes:			
	<ul> <li>push stick used where required</li> </ul>			
	<ul> <li>the use of appropriate PPE at all times</li> </ul>			
	appropriate extraction used at all times			
	cleaning down of all machines after use

# Unit 240 Manufacture internal shopfitting joinery products Task 2 Manufacture, assemble and finish a display stand

#### Task coversheet

Expected time	18 hours	
Task instructions	<ul> <li>Complete a risk assessment.</li> <li>Mark out from the rod.</li> <li>Manufacture and assemble a display stand.</li> <li>Clean up stand to receive a clear finish.</li> <li>Work according to environmental and health and safety regulations.</li> </ul>	
Diagrams	Figure 1 Display stand page 20 Figure 2 Section details of display stand page 21	

AC	The candidate has	Pass	Merit	Distinction
4.1 6.1	carried out a risk assessment for manufacturing a display stand			
	(note: where a risk assessment has been carried out for a previous task, the same form may be added to for this criteria)			
4.2	selected materials for manufacturing a display stand			
	<ul> <li>face and edge correctly selected and marked on all pieces</li> </ul>			
4.3	marked out materials from setting out details			
	<ul> <li>mortices and tenons marked out correctly to within 1 mm</li> </ul>			
	<ul> <li>tenon shoulders marked out correctly to within 1 mm</li> </ul>			
	sections correctly indicated			
	lines clean (no double lines)			
4.4	used tools and machines to profile timber and form joints to manufacture a display stand			
	mortices clean without breakout			
	no bandsaw overrun			
	<ul> <li>no drop-ins/bumps in mouldings exceeding 1 mm</li> </ul>			
	<ul> <li>no drop-ins/bumps in grooves exceeding 1 mm</li> </ul>			
	groove size correct within 1 mm			

AC	The candidate has	Pass	Merit	Distinction
	<ul> <li>grooves in legs stopped between mortices</li> </ul>			
6.2	dry fitted to check the joints for tight fit and overall finished size			
6.3	cleaned up the inside face of components			
6.4	assembled with adhesive and cramps			
	<ul> <li>gaps in shoulders not exceeding 0.5 mm (gaps which exceed 0.5 mm must not exceed 1 mm)</li> </ul>	7 out of 16 joints	10 out of 16 joints	13 out of 16 joints
	<ul> <li>mortice gaps not exceeding 0.5 mm (gaps which exceed 0.5 mm must not exceed 1 mm)</li> </ul>	3 out of 8 joints	5 out of 8 joints	7 out of 8 joints
	<ul> <li>no mitre gaps to lippings exceeding</li> <li>0.5 mm</li> </ul>			
	no gap between top panel and lippings exceeding 0.5 mm			
	<ul> <li>chamfer and groove dimensions correct within 1 mm</li> </ul>			
	<ul> <li>laminates securely bonded without visible adhesive</li> </ul>			
	without cramp marks			
	top securely fixed with brackets			
	excess glue cleaned off			
6.5	carried out quality checks			
	all four faces square within 2 mm			
	overall height correct	within 3 mm	within 2 mm	within 1 mm
	overall width both ways correct	within 3 mm	within 2 mm	within 1 mm
	no rocking when placed on flat surface	within 2 mm	within 1 mm	0 mm
6.6	prepared the display stand to receive finishes			
	lippings flushed using smoothing plane, without tram lines and tearing			
	finish to laminate top not damaged or sanded through			
	<ul> <li>faces sanded to receive clear finish and arrises removed</li> </ul>			
4.5 6.7	tools kept sharp and stored safely after use			

AC	The candidate has	Pass	Merit	Distinction
4.6	followed current environmental and relevant			
6.8	health and safety regulations in relation to manufacturing, assembling and finishing a display stand. This includes			
	<ul> <li>working in accordance with COSHH, PUWER and ACoP</li> </ul>			
	use of PPE			
	<ul> <li>good house keeping</li> </ul>			

Task grading rules		Task grade:
To award a <b>pass</b> : every activity in successfully achieved.	the checklist must be	
To award a <b>merit</b> : in addition to the above, all <b>5</b> graded activities in the checklist must be achieved to <b>at least</b> a merit standard.		
To award a <b>distinction</b> : in addition to both of the above, all <b>5</b> graded activities in the checklist must be achieved to a distinction standard.

City & Guilds is a registered charity established to promote education and training

#### **About City & Guilds**

As the UK's leading vocational education organisation, City & Guilds is leading the talent revolution by inspiring people to unlock their potential and develop their skills. We offer over 500 qualifications across 28 industries through 8500 centres worldwide and award around two million certificates every year. City & Guilds is recognised and respected by employers across the world as a sign of quality and exceptional training.

#### City & Guilds Group

The City & Guilds Group operates from three major hubs: London (servicing Europe, the Caribbean and Americas), Johannesburg (servicing Africa), and Singapore (servicing Asia, Australia and New Zealand). The Group also includes the Institute of Leadership & Management (management and leadership qualifications), City & Guilds Land Based Services (land-based qualifications), the Centre for Skills Development (CSD works to improve the policy and practice of vocational education and training worldwide) and Learning Assistant (an online e-portfolio).
