

# General guidance for candidates

## General guidance

This is a formal assessment that you will be marked and graded on. You will be marked on the quality and accuracy of your practical performance and any written work you produce. It SMEN is therefore important that you carry your work out to the highest standard you can. You should show how well you know and understand the subject and how you are able to use your knowledge and skills together to complete the tasks.

## Plagiarism

This is an assessment of your abilities, so the work must be all your own work and G under the conditions stated. You will be asked to sign a declaration that you have that any outside help with the assessment.

Your tutor is allowed to give you some help understanding the assignment pstructions if necessary, but they will record any other guidance you need and this with e taken into account during marking.

Plagiarism is the failure to acknowledge sources properly and/ e submission of another this assignment. person's work as if it were your own. Plagiarism is not allowed

Where research is allowed, your tutor must be able to identify which work you have done yourself, and what you have found from other sources the therefore important to make sure you acknowledge all sources and clearly reference any information taken from them.

## Timings and planning

Where you have to plan your time, you should take care to make sure you have divided the time available between tasks appropriately. In some assignments, there are specified timings which cannot be changed and which need to be taken into account. You should check your plan is appropriate with your tutor.

If you have a good reason for reasons to your tutor and agree a new Gadline date. Changes to dates will be at the discretion of the tutor, and they may not mark work that is handed in after the agreed deadlines.

## Health and Safet

You must always rk safely, in particular while you are carrying out practical tasks. You must always following relevant Health and Safety regulations and codes of practice.

If your working in a way that is unsafe for yourself or others, they will ask you to stor mediately, and tell you why. Your tutor will not be able to reassess you until they ge you are ready for assessment and can work safely.

## Presentation of work

Presentation of work must be neat and appropriate to the task.

You should make sure that each piece of evidence including any proformas eg record/job cards are clearly labelled with your name and the assignment reference.

All electronic files must be given a clear file name that allows your tutor to identify it as your work.

Written work eq reports may be word processed but this is not a requirement.

# Assignment Brief

You work at an animal rescue centre. Currently in the centre, there is a range of different animals. You are responsible for the day to day care of the animals.

Throughout the year new animals come into the centre. The arrival of new animals can

In advance of the assessment, your tutor will allocate **two** animals to you. For animal 1, your may research mites that affect it and the care requirements for this animal, and make not up to **two** sides of A4 paper. For animal 2, you may only research the care requirements for the care requirement tutor notes of up to **one** side of A4 paper. Bett ender des at the des a tutor prior to the assessment. # Task instructions for centres

### Time

The recommended time allocated for the completion of the tasks and production of FORLINE ASSESSMENT evidence for this assessment is between nine and fourteen hours. It is the centre's responsibility to arrange how this time is managed to fit with timetables during the assessment period. Candidates should be required to plan their work and have their plans confirmed for appropriateness in relation to the time allocated for each task.

The following timings are provided to support centre planning.

Total – nine to fourteen hours.

Task 1	1-2 hours
Task 2	3-4 hours
Task 3	2-3 hours
Task 4	1-2 hours
Task 5	2-3 hours

## **Tutor** guidance

# This guidance should not be shared with candidates.

It is recommended that where possible all tasks within ssignment are completed within 4 weeks of the candidate being given the brief. These to not have to be consecutive weeks if a term break falls in between.

Candidates should be given the assignment of only, one week before the first live assessment. It is important that the tutors a locate the animal species to the candidates at the point of giving out the brief in order to enable research to take place.

Task 1 can be given to candida the start of the supervised session for Task 1. Tasks 2 and 3 can be given to candidates at the start of the supervised session for task 2. Tasks 4 and 5 should only be given ocandidates at the start of the supervised session for each of the corresponding tasks and not in advance. Tasks 1, 2 and 3 need to be completed in order. Task 4 can be completed at any point of the assignment window, but task 5 must be completed after and other tasks.

need to be completed on the same day. It is best practice to leave no more The tasks between linked tasks (1a, 1b). than tv

entre must allocate two animals to the candidate. The two animals used for the assignment must be from different groups to ensure full coverage of the topics included:

Group 1: Large animals (eq horses, ponies, other large mammals ie goats, camelids, donkeys, pigs)

Group 2: Exotics (eq Fishes, birds, exotic reptiles, amphibians or exotic mammals) Group 3: Small domestic mammals or companion animals (eq rabbits, guinea pigs, rodents, cats and dogs)

The same two animals must be used for all the tasks.

## Task 1:

The animal used for this task does not have to have mites in order for the candidate to complete the task.

## Task 1 and Task 2:

Candidates should be given a week after being given the brief to enable research to take place. Tutors should be reminded evidence may need to be uploaded for moderation. The notes may be typed or handwritten and should not be more than **two** sides of A4 paper for Task 1 and **one** side of A4 for Task 2. Candidates must hand their notes in to the tutor prior to the supervised session, who should review the notes for authenticity and to ensure it is not a direct copy from a textbook or the candidate's entire course folder. The candidate be notes should be handed back to them at the start of the supervised session for the task.

Candidates are **not** permitted any additional notes whilst completing this task. **Dis** includes classroom notes, printed resources and text books. They are also not permitted internet access.

For task 2 candidates should be given access to their research notes for Task 1 and Task 2.

### Task 3:

Candidates must have access to their plans from task 2.

Candidates must have access to a suitable range of resources to carry out the following tasks:

- handle and restrain the animals safely
- maintain and clean their accommodate
- check the accommodation for safety and security
- provide food and water for them
- monitor food and water intake
- health check.

These tasks should be led by the candidate's own plan, tutors should not prompt candidates to carry out the tasks. Candidates should provide a verbal commentary as they carry out the tasks to aid the assessment; however, tutors should not prompt this commentary with leading questions.

Tutors should plan to observe the candidates carrying out the range of husbandry tasks for each ar ina. Both observations of the candidates should not take place on the same day and candidates should perform each task once for each animal.

Condidates are **not** permitted any notes whilst completing this task. This includes classroom notes, printed resources and text books. They are also not permitted internet access.

## Task 4:

Candidates should observe **each** animal a minimum of two times. Both observations for the same animal cannot be done on the same day. Observations should be 15-20 minutes. It is not acceptable to observe animals at a time when they would normally sleep or are in hiding. The candidate's findings should be recorded on the observation record sheet provided in appendix 1.

Candidates are **not** permitted any notes whilst completing this task. This includes classroom notes, printed resources and text books. They are also not permitted internet access.

### Task 5:

Candidates should have access to their plans from task 2 and their observation record

PASTASSIGNMENT 2019-00 NOTUSEFOR UNE ASSESSMENT

# Centre guidance

Guidance provided in this document supports the administration of this assignment. The following documents available on the City & Guilds website provide essential generic guidance for centres delivering Technical gualifications and **must** be referred to alongside this guidance:

- Technical qualifications marking •
- **Technical qualifications moderation** (updated annually) .
- Technical gualifications teaching, learning and assessment •

SSMENT This synoptic assessment is designed to require the candidate to make use of their 🖊 knowledge, understanding and skills that they have built up over the course of the to tackle problems/tasks/challenges.

This approach to assessment emphasises to candidates the importance and applicability of the full range of their learning to practice in their industry area, and supp them in learning to take responsibility for transferring their knowledge, understanding and skills to the practical situation, fostering independence, autonomy and confider

Candidates are provided with an assignment brief. They then ha to draw on their knowledge and skills and independently select the correct pa esses, skills, materials, and approaches to take to provide the evidence specified by the srief.

During the learning programme, it is expected that tut Smill have taken the opportunity to set shorter, formative tasks that allow candidates to be supported to independently use the learning they have so far covered, drawing this together in a similar way, so they are familiar with the format, conditions and expectations of the synoptic assessment.

Candidates should be made aware during learning what the Assessment Objectives are and how they are implemented in marking the ssignment, so they will understand the level of performance that will achieve them high marks.

Candidates should not be entered for the assessment until the end of the course of learning for the qualification so they are a position to complete the assignment successfully.

## Health and safety

Candidates should not be entered for assessment without being clear of the importance of working safely, and practice of doing so. The tutor must immediately stop an assessment if a candidate works unsafely. At the discretion of the tutor, depending on the severity of the incident, the andidate may be given a warning. If they continue to work unsafely however, ent must be ended and they must retake the assessment at a later date. their ass

## liance with timings

e timings provided are estimates to support centre planning. They refer to assessment ime, not any additional setting up needed to create an appropriate assessment environment.

It is the centre's responsibility to plan sufficient assessment sessions, under the appropriate conditions, within the assignment window, to allow candidates reasonable time to complete the assessment tasks.

Where candidates are required to plan their work they should have their plans confirmed for appropriateness in relation to the time allocated for each task.

Candidates should be allowed sufficient time to fully demonstrate the range of their skills, however this also needs to be reasonable and practicable. Candidates should be allowed to overrun their planned timings or professional service times (where they exist) in order for evidence of a range of their skills to be captured. If however, the time required exceeds reasonably set assessment periods, or the tolerance suggested for professional service times, the centre may stop the assessment and base the marking on the evidence up to that point, including the tutor's notes of how far over time the task has taken.

notes must be recorded on the practical observation of performance, detailed, descriptive flexibility to adapt the form, to suit local requirements (eg to use tablet, hand-written formats, or to ease local administration) as long as the set of a stable of a of evidence collected.

The number of candidates a tutor will be able to observe at one time will vary dep NE on:

- the complexity of evidence collection for the task
- local conditions eq layout of the assessment environment, •
- amount of additional support available (eq to capture im aret video evidence), • staggered starts etc,
- whether there are any peak times where there is the evidence to collect that will need additional support or any that are quieter

It is advisable to trial the planned arrangements where bossible during formative assessment, reviewing the quality of evidence convred and manageability. It is expected that for straight forward observations, (and uness otherwise specified) no more than eight candidates will be observed by a single tutor at one time, and the number will usually be fewer than this maximum. The key facto to consider is the logistics of collecting sufficient evidence.

As far as possible, candidates should not be distracted, or their performance affected by the process of observation and evidence collection.

Observation notes form part of the candidate's evidence and must describe **how well** the activity has been carried out rather than stating the steps/ actions the candidate has taken. The notes must be very descriptive and focus on the quality of the performance in such a way that comparison between performances can be made. They must provide sufficient, appropriate evidence that can be used by the marker (and moderator) to mark the performance using the marking grid.

Identifying that it is about the performances that is **different** between candidates can clarify the qualities that are important to record. Each candidate is likely to carry out the same stops, so a checklist of this information would not help differentiate between them Tops, so a checklist of this information would not help differentiate between them. Wer qualitative comments on how well they do it, and quantitative records of accuracy and tolerances would.

he tutor should refer to the marking grid to ensure appropriate aspects of performance are recorded. These notes will be used for marking and moderation purposes and so must be detailed, accurate and differentiating.

Tutors should ensure that any required additional supporting evidence including eq photographs or video can be easily matched to the correct candidate, are clear, well-lit and showing the areas of particular interest in sufficient detail and clarity for assessment (ie taken at appropriate points in production, showing accuracy of measurements where appropriate).

If candidates are required to work as a team, each candidate's contribution must be noted separately. The tutor may intervene if any individual candidate's contribution is unclear or to ensure fair access (see below).

The Technical qualifications quides on marking and moderation are essential quidance documents and are available on the City & Guilds website. These provide further information on preparing for assessment, evidence gathering, standardisation, marking and moderation, and must be referred to when planning and carrying out assessment. SSMEN

### Minimum evidence requirements for marking and moderation

The sections in the assignment:

- What you must produce for marking, and
- Additional evidence of your performance that must be captured for marking •

list the minimum requirements of evidence to be submitted for marking and the sample.

Evidence produced during assessment above and beyond this may be submitted, as long as it provides useful information for marking and moderation and has been keen under appropriate conditions.

While technological methods which support the capturing or creating of evidence can be helpful, eg pinboard style websites for creating mood boards, the final evidence must be converted to a suitable format for marking and moderation which cannot be lost/ deleted or amended after the end of the assessment period (eg screen prints, pdf files). Considerations around tracking authenticity and potential loss of material wosted on such platforms during assessment is the centre's responsibility. assessment is the centre's responsibility.

Where candidates have carried out some work as group, the contribution of each candidate must be clear. It is not appropriate to submit identical information for each candidate without some way for the marker and moderator to mark the candidates individually.

Note: Combining candidates' individual pieces of evidence into single files or zip files may make evidence management during internal marking more efficient and will greatly simplify the uploading of the moderation ample.

Where the minimum requirements have **not been submitted** for the moderation sample by the final moderation deadline, or the **quality of evidence is insufficient** to make a judgement, the moderation, and therefore any subsequent adjustment, will be based on the evidence that has been submitted. Where this is insufficient to provide a mark on moderation, a mark of zero may be given.

# Preparation of candidates

Candidate should be aware of which aspects of their performance (across the AOs) will give the good marks in assessment. This is best carried out through routinely pointing out good or poor performance during the learning period, and through formative assessment.

During the learning programme, direct tutor instruction in how to tackle practical tasks through modelling, support, guidance and feedback are critical. However gradual removal of this support is necessary in preparation for summative assessment. This, supported approach is not valid for summative assessment.

The purpose of summative assessment is to confirm the standard the candidate has reached as a result of participating in the learning process. Candidates should be encouraged to do the best they can and be made aware of the difference between these summative assessments and any formative assessments they have been subject to. Candidates may not have access to the full marking grids, as these may be misinterpreted as pass, merit distinction descriptors. Refer to the Technical qualifications - teaching, learning and

assessment centre guidance document, available on the City & Guilds website for further information on preparing candidates for Technical gualification assessment.

### Guidance on assessment conditions

The assessment conditions that are in place for this synoptic assignment are to:

- ensure the rigour of the assessment process •

They can be thought of as the rules that ensure that all candidates who take an assessment are being treated fairly, equally and in a manner that ensures their result reflects their true ability.

tive assessment. are prepared for the conditions they will need to work under during sum

The evidence for the tasks that make up this synoptic assignment must be completed under the specified conditions. This is to ensure authenticity and preven mapractice as well as to assess and record candidate performance for assessment in the pectical tasks. Any aspect that may be undertaken in unsupervised conditions is specified. It is the centre's that may be undertaken in unsupervised conditions is specified. It is the centre's responsibility to ensure that local administration and oversight gives the tutor sufficient confidence to be able to confirm the authenticity of the case didate's work.

## Security and authentication of candidate wor

Candidate evidence must be kept secure to **x** went unsupervised access by the candidate or others. Where evidence is produced over number of sessions, the tutor must ensure learners and others cannot access the evidence without supervision. This might include storing written work or artefacts in locked cupboards and collecting memory sticks of evidence produced electronically at the end of each session.

Candidates are required to sign arations of authenticity, as is the tutor. The relevant form is included in this assignment pack and must be signed after the production of all evidence.

Where the candidate or tutor is unable to, or does not confirm authenticity through signing the declarction form, the work will not be accepted at moderation and a mark of zero will be present if any question of authenticity arises eg at moderation, the centre may be contasted for justification of authentication.

## and fairness

candidate has special requirements, tutors should refer to the Access arrangements and reasonable adjustments section of the City & Guilds website.

Tutors can support access where necessary by providing clarification to any candidate on the requirements or timings of any aspect of this synoptic assignment. Tutors should **not** provide more guidance than the candidate needs as this may impact on the candidate's grade, see the guidance and feedback section below.

All candidates must be provided with an environment, time frame and resources that allows them reasonable access to the full range of marks available.

Where candidates have worked in groups to complete one or more tasks for this synoptic assessment, the tutor must ensure that no candidate is disadvantaged as a result of the performance of any other team member. If a team member is distracting or preventing

another team member from fully demonstrating their skills or knowledge, the tutor must intervene.

## Guidance and feedback

To support centre file management, tutors may specify a suitable file format and referencing format for evidence (unless otherwise specified eq if file naming is an assessment point for the assignment). Guidance must only support access to the assignment and must not taken into account along with the candidate's final evidence during marking control of the made available for moderation. provide feedback for improvement. The level and frequency of clarification & guidance must be

- •

Tutors must not provide feedback on the quality of the performance or how the evidence can be improved. This would be classed as malpractice.

Tutors should however provide general reminders to candidates throughout the assessment period to check their work thoroughly before submitting it, and to be sure that they are happy with their final evidence as it may not be worked on furthe offer submission.

Candidates can rework any evidence that has been produced by his synoptic assignment during the time allowed. However, this must be as a result of heir own review and identification of weaknesses and not as a result of tutor teroback. Once the evidence has been submitted for assessment, no further amendments to evidence can be made.

Tutors should check and be aware of the candidates' plans and designs to ensure management of time and resources is appropriate, and so any allowed intervention can take place at an appropriate time.

Tutors **should** ensure that candidates' pan for completion of the tasks distribute the time available appropriately and may guide candidates on where they should be up to at any point in a general way. Any excessive time taken for any task should be recorded and should be taken into account during making if appropriate.

It is up to the marker to decree if the guidance the candidate has required suggests they are lacking in any AO, the sevent of the issue, and how to award marks on the basis of this full range of evidence. The marker must record where and how guidance has had an impact on the marks given, so wish's available should queries arise at moderation or appeal.

### pot, an appropriate level of guidance What is, and

- should intervene with caution if a candidate has taken a course of action will result in them not being able to submit the full range of evidence for sessment. However, this should **only** take place once the tutor has prompted the candidate to check that they have covered all the requirements. Where the tutor has to be explicit as to what the issue is, this is likely to demonstrate a lack of understanding on the part of the candidate rather than a simple error, and full details should be recorded on the CRF.
- The tutor **should not** provide guidance if the candidate is thought to be able to correct the issue without it, and a prompt would suffice. In other words, only the minimum support the candidate actually needs should be given, since the more tutor guidance provided, the less of the candidate's own performance is being demonstrated and therefore the larger the impact on the marks awarded.
- A tutor **must not** provide guidance that the candidate's work is not at the required standard or how to improve their work. In this way, candidates are given the chance

to identify and correct any errors on their own, providing valid evidence of knowledge and skills that will be credited during marking.

The tutor **must not** produce any templates, pro-formas, work logs etc unless • instructed to in the assignment guidance. Where instructed to do so, these materials must be produced as specified and contain no additional guidance. Templates provided as part of the assignment should be used as provided, and not adapted.

*Guidance on marking* Please refer to the *Technical qualifications – marking, and - moderation* centre ordence documents for further information on gathering evidence suitable for marking and the marking grid and forms.

- Details of any guidance or the level of prompting the candidate has received during the assessment period
- Rough notes bringing together relevant evidence from a stasks during marking.
- Summary justifications when holistically coming to an verall judgement of the mark.

The practical observation form (PO) is used to record

Descriptive information and evidence of Andidate performance during an observation. Although descriptions of the quality of performance should support decisions against the AOs, the notes should follow the flow of the observation, rather than attempting to assign evidence against the AOs at this point.

## Bottom of band:

Shows poor attention to detail. There is a lack of effective engagement with the tasks and work produced to a poor to limited standard. Tasks not completed within agreed timeframes or are rushed. Limited health, safety and hygiene compliance. Quality of skills is limited and may be carried out with some awkwardness. Poor care of equipment. Minimal consideration for animal needs.

### Top of band:

Shows fair attention to detail with limited engagement with the tasks. Work produced to an adequate standard. Tasks may not be completed within agreed timeframes or may be rushed. Some health, safety and hygiene compliance. Quality of skills sporadically applied. Minimal care of equipment. Minimal consideration for animal needs.

## Bottom of band:

Shows fair attention to detail. Effective level of engagement with the tasks. Work produced to reasonable standard. Completes tasks within agreed timescales. Compliance with health, safety and hygiene requirements. Quality of skills is adequate. Adequate care of equipment and consideration for animal needs.

## Top of band:

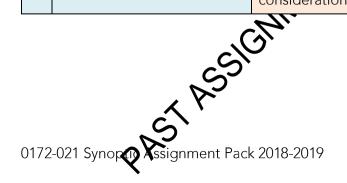

Shows attention to detail and engagement. Completes tasks within agreed timescales. Compliance with health, safety and hygiene requirements. Confident application of skills and work produced to a good standard. Appropriate care of equipment. Consistent consideration for animal needs. Demonstrates awareness of industry standards.

## Bottom of band:

Shows consistent attention to detail and engagement. Completes tasks within agreed timescales. Competent application of health, safety and hygiene requirements. Demonstrates skills to industry standards. Appropriate care of equipment. Consistent consideration for animal needs.

## Top of band:

Shows consistently high level of skills to industry standard, and completes tasks competently and confidently within agreed timescales. Work produced to a high standard. Excellent attention to detail including health, safety and hygiene considerations consistently applied. Consideration for animal needs paramount throughout and appropriate care of equipment. Adapts and makes adjustments to practice.

Bottom of band: Carries out tasks in isolation with limited understanding of links between theory and practice. Has difficulty adapting to presented situations. Top of band: Carries out tasks showing disjointed links between theory and practice. Has difficulty adapting to presented situations.	Bottom of band: Beginning to demonstrate valid links between key aspects of theory and practice. Starting adapt to presented situations. Applies understanding to practical application in presented situations. Top of band: Routinely makes valid links between key aspects of theory and practice. Shows confidence in adapting to presented situations. Starting to reflect on performance. Applies understanding to practical application competently in presented situations.	Bottom of band: Makes valid links between theory and practice. Confidently adapts to presented situations. Reflects on performance to identify improvements to own practice. Applies understanding to practical application competently in presented situations and provides some justification for their decisions. Top of band: Demonstrates a holistic understanding across tasks in line with industry standards. Integrates, and reflects on knowledge, understanding and skills to inform a full understanding of the wider context when working with animals. Applies understanding to practical application competently in presented situations and provides detailed
		situations and provides detailed justification for their decisions.

0172-021 Synop Assignment Pack 2018-2019

				MENT
10	<ul> <li>AO5 Attending to</li> <li>detail/perfecting</li> <li>Does the candidate routinely check on quality, finish etc and attend to imperfections/ omissions?</li> <li>How much is accuracy a</li> </ul>	(1-2 marks) Easily distracted or lack of checking. Insufficiently concerned by poor result; little attempt to improve. Gives up too early; focus may be on completion rather than quality of outcome.	(3-4 marks) Aims for satisfactory result but may not persist beyond this. Uses feedback methods but perhaps not fully or consistently. Variable/intermittent attention, reasonably conscientious, some	(5-6 marks) Alert, focussed on task. Attentive and persistently pursuing excellence. Using feedback to identify problems for correction. Noticing, checking, persistent, perfecting, refining, accurate,
	<ul> <li>result of persistent care and attention (eg measure twice cut once)?</li> <li>Would you describe the candidate as a perfectionist and wholly engaged in the subject?</li> </ul>	management, care and welfare wh	imperfections, unremarkable. Meeting specific requirements of t ien working with animals, accurate f naviours and environmental factors.	eeding, watering and husbandry
		Shows some attention to detail. However planning and application may demonstrate some inaccuracies, gaps and errors. Interpretation of task brief may lack a logical sequence.	Shows adequate attention to detail. Planning and application of skills generally accurate with few gaps. Minimal errors evident. Interprets task brief with adequate logical sequence.	Shows excellent attention to detail. Highly focused on the brief with consistent checking and perfecting to ensure a good outcome based on task objectives. Care and accuracy shown in planning and application.
