

## Level 2 Technical Certificate in Land and Wildlife (0173-20)

**Sample External Test** 

Duration: 1 hour 30 minutes

No	Test spec ref	Question	Кеу
1	202 1.1 AO1	What skills are required for the job role of assistant on an estate maintenance team?  a. Fencing, hedging, habitat management b. Incubation and game bird rearing c. Game and wildlife management d. Fish production and re-stocking	A
2	202 1.1 AO2	<ul> <li>What is the role of an assistant nature reserve warden?</li> <li>a. To produce habitat management plans, apply for grant funding, manage budgets</li> <li>b. To assist with the production of work plans, carry out surveys, supervise reserve staff</li> <li>c. To assist with practical tasks, run visits to the reserve and supervise volunteers</li> <li>d. To survey habitats, organise contractors, manage and lead visits to the reserve</li> </ul>	С
3	202 1.2 AO1	Which statutory organisation has responsibility for issuing flood warnings?  a. Natural England b. Environment Agency c. Forestry Commission d. Joint Nature Conservation Committee	В
4	202 1.2 AO2	Which one of the following organisations regulates wildlife licensing?  a. Forestry Commission b. Natural England c. Joint Nature Conservation Committee d. Royal Society for the Protection of Birds	В
5	202 1.3 AO2	What would an employee who works 40 hours per week from April to September be classed as?  a. Full time b. Seasonal c. Part time d. Self employed	В
6	203 1.1 AO1	What is a whacker plate used for?  a. Hedge cutting b. Laying a surface c. Tree felling d. Clearing arisings	В
7	203 1.1 AO2	Which one of the machines below is used for grass cutting?	D
		a.

8	203 1.2 AO1	What are the main hazards when using a loader at height? a. Uneven ground and wildlife b. Wildlife and weather conditions c. Overhead power lines and uneven ground d. Overhead power lines and low flying aircraft	С

No	Test spec ref	Question	Key
9	203 1.2 AO1	What is the purpose of a chain harrow?  Source: www.williamhackett.co.uk  a. Lifting loose material to remove stones b. Aerating the soil and improving the drainage c. Breaking up and smoothing the surface of the soil d. Turning over the upper layer of the soil and burying weeds	С
10	203 2.1 AO1	What PPE <b>must</b> be worn when using a sit astride all-terrain vehicle (quad bike)?  a. Gloves b. Helmet c. Goggles d. Hi-viz clothing	В
11	203 2.2 AO1	When is the best time to check the engine oil on an ATV?  a. At the start of the day b. Before starting machine c. After starting machine d. At the end of the day	В
12	203 2.2 AO2	Before using a 4x4 vehicle what <b>essential</b> checks must be carried out?  a. Oil, fuel, seats and heating b. Oil, water, fuel and tyre pressures c. Oil, water, air conditioning and seats d. Oil, fuel, windscreen wipers and seats	В
13	203 2.3 AO1	When is the <b>best</b> time to refuel a diesel tractor?  a. At the end of the working day  b. When the engine is cold  c. During the middle of the day  d. When the engine is hot	В
14	203 2.4 AO2	What is the main purpose of carrying out inspection checks on equipment?  a. To ensure safe operation and maintenance b. To update records with replacement dates c. To conduct an inventory of all equipment on site d. To ensure use of correct personal protective equipment	A
15	204 1.1 AO1	What is the type of habitat shown in the image below?	D

No	Test spec ref	Question	Key
		Source: <a href="http://jncc.defra.gov.uk">http://jncc.defra.gov.uk</a>	
		a. Farmland b. Grassland c. Deciduous woodland d. Moorland	
16	204 1.1 AO1	In which habitat are Red Grouse <b>most</b> likely to be found? a. Woodland b. Moorland c. Grassland d. Urban	В
17	204 1.1 AO1	Which of the following tree species is deciduous?  a. Douglas fir b. Scottish pine c. Horse chestnut d. Common juniper	С
18	204 1.1 AO1	In which habitat are Grey Partridge <b>most</b> likely to be found?  a. Farmland b. Woodland c. Ponds d. Urban	A
19	204 1.1 AO1	What are the <b>main</b> characteristics of a moorland habitat?  a. Arable, lowland b. Wet, marginal grassland c. Densely populated with trees d. Open, inaccessible upland	D
20	204 1.1 AO1	In which habitat are Red Squirrel <b>most</b> likely to be found?  a. Farmland b. Woodland c. Grassland d. Moorland	В
21	204 1.2 AO1	What does the term topography mean? a. Soil type b. Flora and fauna c. Change of climate d. Surface features of land	D
22	204 1.2 AO1	Which of the following can <b>all</b> be described as Fauna?  a. Skylark, oak, newt, willow b. Privet, sedge, ragwort, hawthorn	С

No	Test spec ref	Question	Key
		c. Muntjac, slow worm, small copper, pike d. Hawthorn, grasshopper, oak, grain	
23	204 1.2 AO1	What is most likely to be affected by different soil types?  a. Flora b. Fauna c. Climate d. Topography	С
24	204 1.2 AO2	What is the <b>main</b> factor in the creation of peat bog?  a. Waterlogged land b. Steep slopes c. Good drainage d. Sheep grazing	A
25	204 2.1 AO2	Which of the following is an abiotic factor that affects wildlife?  a. Disease b. Predation c. Competition d. Climate	D
26	204 2.1 AO1	Which of the following species is classed as flora?  a. Fox b. Sedge c. Mouse d. Grasshopper	В
27	204 2.2 AO2	Which of the species in the food web below are all predators?  Foxes  Owls  Birds  Grasshoppers  (Not drawn to scale)  Source: www.gridgit.com  a. Foxes, owls, birds b. Rabbits, mice, grasshoppers c. Rabbits, foxes, owls d. Mice, grasshoppers, birds	A
28	204 2.2 AO2	Which are the <b>primary</b> consumers in the food web shown below?	А

No	Test spec ref	Question	Key
		Rabbits Mice Grasses Grains (Not drawn to scale)  Source: www.gridgit.com  a. Rabbits, mice, grasshoppers, birds b. Rabbits, mice, grasshoppers c. Carrots, grasses, grains d. Foxes, owls	
29	204 2.2 AO2	What characteristic of a species is an indication of social behaviour?  a. Living as a group b. Living in isolation c. Predating d. Competing	A
30	204 2.2 AO2	Which of the following species below would be <b>most</b> directly affected if the mice and vole population declined  a. Fox b. Owl c. Jay d. Rabbit	В
31	204 3.1 AO1	Which of the following is covered by the Environmental Protection Act?  a. Nesting birds b. Rod licences c. Waste disposal d. Animal welfare	С
32	204 3.1 AO2	Which of the following legislation applies <b>only</b> to captive vertebrates?  a. Animal Welfare Act 2006  b. Wildlife and Countryside Act 1981  c. Environmental Protection Act 1990  d. Countryside and Rights of Way Act 2000	A
33	204 3.2 AO2	Which of the following strategies has the <b>main</b> aim of protecting threatened wildlife and habitats?  a. National Parks b. Sites of Special Scientific Interest c. Areas of Outstanding Natural Beauty d. Environmental Stewardship Scheme	В

No	Test spec ref	Question	Key
34	204 3.2 AO1	Which of the following national parks is <b>not</b> an upland area?  a. Snowdonia b. Peak District c. Norfolk Broads d. North Yorkshire Moors	С
35	205 1.1 AO1	What part of the fence is shown by the arrow below?  www.mouldsfencing.com  a. Fence strut b. Strainer post c. Thrust plate d. Intermediary post	В
36	205 1.1 AO1	What type of fixing is shown below?  Source: www.thomaspotter.com  a. Nail b. Screw c. Coach bolt d. Nut and bolt	C
37	205 1.1 AO1	What is the type of fence shown in the image below?  Source: www.mouldsfencing.com	A

No	Test spec ref	Question	Key
		a. Stock b. Rabbit c. Chestnut paling d. Post and rail	
38	205 1.1 AO1	What is the name of this tool?	D
		Source: <a href="http://cktools-superstore.co.uk/">http://cktools-superstore.co.uk/</a>	
		a. Auger b. Tamper c. Spirit level d. Fencing pliers	
39	205 1.1 AO1	What is the tool below used for?	С
		3200MAC	
		Source: <a href="http://www.alliedconstruction-online.co.uk/">http://www.alliedconstruction-online.co.uk/</a> <ul> <li>a. Measuring</li> <li>b. Cutting</li> <li>c. Levelling</li> <li>d. Tamping</li> </ul>	
40	205 1.2 AO1	What is the fixing below used for?	В
		Source:www.screwfix.com  a. Connecting wire  b. Fixing wire to wood  c. Joining two pieces of metal  d. Joining two pieces of wood	

No	Test spec ref	Question	Key
41	205 1.2 AO2	The fence below is <b>best</b> used as a boundary for which animals?	D
		Source: www.jacksons-fencing.co.uk	
		a. Deer, horses b. Cattle, deer c. Ewes, lambs d. Cattle, horses	
42	205 1.2 AO2	When marking out a base to create a right angle at point B in the diagram below, what is the correct measurement between points A and C	В
		a. 4m b. 5m c. 6m d. 7m	
43-45		You have been asked to erect a post and wire fence along a boundary in order to prevent deer gaining access. The completed fence will be 15 metres in length and the fence posts are to be placed every 3m apart.  The area is very overgrown and the job will involve the removal of an existing damaged fence and the clearance of overgrown scrub prior to commencing the work	
		In order to answer items relating to the scenario above, candidates would need to demonstrate the following  Knowledge: planning works, health & safety fencing materials and equipment, measuring and calculating  Understanding: consideration of types of boundary and habitats, different types of fences, uses of equipment  Analysis: review of information provided to evaluate key aspects of job  Evaluation: types of boundaries that prevent access, relationship between types of fences and equipment required, construction techniques	
43	203,204, 205 AO4	What are the <b>critical</b> aspects of the job that must be considered prior to starting work?  a. Type of boundary required, existing habitat, risk assessment b. Characteristics of the land, PPE, types of species c. Machinery required, soil type, surrounding environment d. Availability of local labour, location of roads, equipment	A

No	Test spec ref	Question	Key
44	205, 203 AO4	What are the key tools and materials required to build the deer fence?  a. Nails, wooden rails, strimmer  b. Netting, staples, post knocker  c. Coach bolts, boards, whacker plate  d. Wire, chestnut paling, chainsaw	В
45	205 AO4	How many posts would be required to complete the new fence?  a. 4 b. 5 c. 6 d. 7	С
46-48		A landowner in Yorkshire has to carry out maintenance on hedgerows across his land. He needs to remove a small section of hedgerow but has a strong commitment to the environment and wants to limit the damage to the existing wildlife.  In order to answer items relating to the scenario above, candidates would need to demonstrate the following  Knowledge: Wildlife habitats, organisations and national legislation  Understanding: Environmental and conservation issues  Analysis: Ability to assess a given situation and identify relevant information  Evaluation: review a specific situation and determine effects on wildlife habitat	
46	204 4.1, 4.4 AO4	Which of the following species would be <b>most</b> affected by removing a section of hedgerow?  a. Muntjac b. Blackbirds c. Brown hares d. Great crested newts	В
47	204 4.4 AO4	At what time of year should the hedge removal work be completed to minimise the impact on wildlife?  a. Winter  b. Spring  c. Summer  d. Autumn	A
48	202 1.2 AO4	Which organisation must be consulted before removing hedges?  a. Joint Nature Conservation Committee  b. Environment Agency  c. Forestry Commission  d. Natural England	D
49-50		Scenario You have been asked to develop a wet piece of woodland into a wildlife habitat site, to attract amphibians and wildfowl. The development includes the removal of non-viable and dead deciduous trees, the digging of new ditches, and clearing of an old pond filled with debris and weeds. Following the clearing work new trees and shrubs will need to be planted	

No	Test spec ref	Question	Key
		In order to answer items relating to the scenario above, candidates would need to demonstrate the following  Knowledge: Wildlife habitats, planning habitat works  Understanding: Environmental and conservation issues, consideration of types of habitats,  Analysis: review of information provided to evaluate key aspects of job	
49	204 4.1 205 3.1, 3.2	What are the <b>key</b> considerations when planning the development?  a. Methodology, objective, location, deadlines, legislation  b. Legislation, equipment, clothing, weather  c. Refreshments, transport, workforce, access requirements  d. Contractual requirements, clothing, vehicles	A
50	202 1.1 204 4.1 205 3.1, 3.2	Which of the trees below would be most suited for replanting the above habitat?  a. Hazel, Birch, Alder, Willow b. Monkey puzzle, Oak, Elm, Yew c. Ash, Yew, Monkey puzzle, Elder d. Elder, Willow, Elm, Conifer	A
