Dear Susie

City & Guilds Level 2 Technical Certificate in Forestry and Arboriculture

As the Trade Organisation for the Arboriculture industry we feel that the following qualifications meet the industry needs and would give a learner the relevant skills to gain employment. The qualifications develop and confirm occupational competence (knowledge and skills) which are relevant to the industry.

We support the above qualification and feel that it is suitable for someone aged 16 years or over. The skills and knowledge included within this qualification could provide an advantage for somebody applying for a job as a trainee:

- arboriculture/forestry worker
- forestry team member
- tree nursery worker

We confirm that we support the inclusion of the following skills, knowledge and understanding to provide a solid foundation for working in the forestry and arboriculture sector:

- Health and safety for land-based industries
- Introduction to the Forestry & Arboriculture Sector
- Environment and Conservation
- Tree Classification and Identification
- Introduction to Plant Science
- Tree Establishment
- Tree and Woodland Management
- Tools and Equipment

The qualification would also be suitable for someone to progress to further learning and training, or to an apprenticeship as an arborist or forest operative.
