

Building strong foundations in skills

Our recent contracts and tender wins with Qualifications Wales and Ministry of Justice and leading on T Levels in Construction in England for 2021 highlight our position and reputation in the industry. No other awarding organisation has the breadth and depth of offer across Construction and BSE like we do.

Our EPA and on-programme offer provide a one-stop shop for the Construction and BSE sector. Naz Lewis-Humphrey, Industry Manager for Construction said;

“Our flexible apprenticeship solution for Construction and BSE gives you the tools you need to support apprentices, build their confidence and competence and ensure a quality learning experience.”

Construction and BSE – preparing apprentices for EPA success

As a market leader in EPA, we've delivered more than 35,000 EPAs since the launch of the new standards with a 90% pass rate. We have over 60,000 apprentices registered to take EPA with us across the range of sectors we serve.

We put customer success at the heart of apprenticeships. Our emphasis on centre support, quality of materials and preparation for apprentices, together with 140 years of working in education and with industry partners, makes us a trusted leader in EPA services.

Enabling success

We have unrivalled support and assessment preparation tools for you and your apprentices:

- EPA Preparation resources
- Exemplar materials for Construction Standards
- EPA Pack
- Apprenticeships Training Manual
- Lead Independent End-point Assessor (LIEPA) reports
- Learning Assistant and PIVOT
- Tutor support and assessment preparation resources via EPA Pro
- EPA Pro - our new EPA service delivery platform bringing the end-to-end EPA journey, from registration to results, all into one place.

Working with industry

In summer 2020 we launched our new collaborative Employer & Industry Board for Construction and Building Services.

This board will come together regularly to discuss and highlight industry changes and demands that will influence the future training and development of Construction and BSE qualifications and assessments.
