

Hair & Beauty March 2020

Enabling Employers to make their choice heard.

- 7002 - Level 2 Hair Professional
- 7003 - Level 2 Beauty Professional
- 7004 - Level 3 Diploma for Advanced and Creative Hair Professionals

Enabling Employers to make their choice heard.

Apprenticeship Standards allow employers to choose which End Point Assessment Organisation (EPAO) they wish to use to undertake the EPA with their learners. This decision could be based on the company's reputation or the trust that the organisation will give the learner the best opportunity to achieve at the highest level.

With that in mind we have recently changed the way we approve our EPA-Only centres, allowing them fast-track approval to deliver EPA, if they are currently delivering their on-programme with another AO.

This allows learners, who many have completed their on-programme qualification through a different AO, to use that evidence to sit EPA with City & Guilds.

We have created two new complexes that carry at £25 registration, 7002 – 04 and 7002- 05 and will allow you to book EPA and be invoiced, as usual on completion.

More detail can be found below.

- **EPA only customer;** is required to submit an End Point Assessment application form using the 7002-52 Hairdressing or 7002-53 Barbering complex numbers. City & Guilds will add the necessary complex numbers (04/05) to your application.
- **City & Guilds customer or a provider/centre seeking approval for On-Programme and EPA –** submit a Qualification Approval Form QAP for 7002-02 or 03 and C&G will add the OP and EPA POS

Our EPA applications team will set you up within five days or will call you to verify information if there is anything missing. If you need support, please contact epaapplications@cityandguilds.com or call 01924 206719.

Please liaise with your **Technical Advisor, Sarah Fillaudeau.**
