

## **Building Futures transitioning to new construction apprenticeships events**

These Regional Events are free and open for all FE colleges and provide training providers who are considering delivering the Construction apprenticeship standards within Bricklaying, Carpentry and Joinery, Plastering and Painting and Decorating and want to see more of what the City and Guilds offer looks like.

At present and over the next couple of years, the Construction portfolio is currently facing a number of challenges that will affect future qualifications and the way we carry out formal assessments. One of these key drivers are the new apprenticeship standards. We are therefore keen to keep our delivery network up to date and provide the guidance and support required.

The agenda will focus on the new apprenticeship standards and will be hosted by our Construction Technical advisor.
