Develop
job-role
competency

Enable
progression

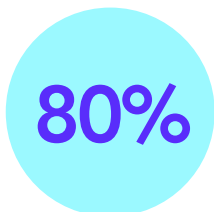

Deliver better
value for
clients

Impact

faster
progression
for junior
technicians

reduction
in job role
training

To find out how you can realise your business potential visit cityandguilds.com/recognition-services

“Our main reason for selecting City & Guilds Assured is that it allows us to certify workplace competency, while ensuring that our training is world-class quality.”

Junior technicians from our Assured programmes are able to progress to the next competency level within 6-9 months, compared to 3-4 years which was the typical duration before we introduced Assured.”

Phil Costelloe
CEO
