

The latest news and Insights

T Level Quarterly Update October 2022

Dear colleague,

Welcome to the first T Levels e-bulletin for the academic year. We hope you enjoyed some time off over the summer holidays and are now ready to dive right in! A warm welcome to the providers joining us on their first year of delivery and welcome back to those moving into their second year of delivery.

This edition of the e-bulletin will provide you with essential information for the start of the academic year including links to support webinars and in-person event, textbooks, tutor resources and much more. Feel free to jump to the sections most relevant to you, but please do take a moment to read through our general updates.

This quarter's highlights:

Provider Approval Process

The approval window for eligible providers opens on Monday 27th February 2023, ready for first teaching in September 2023.

To date, we have approved 254 T Level applications for the 2022/23 academic year. Please be aware, in order for you to deliver your selected T Levels, your TQA will need to arrange a time with you to complete your Action Plan. Your TQA should have reached out to you already to begin this process.

Please make sure you set a date over the next couple of weeks to meet with them and discuss any outstanding actions.

Keep checking our [T Levels Resource Hub](#) on our website, for regular updates, and for further details on next year's approval process.

Tutor resources update

Tutor resources

We have now released many of our tutor resources to support delivery staff. These include schemes of work, worksheets, PowerPoints and multiple-choice questions for each knowledge outcome. To locate and download these resources visit the 'Tutor resources' section of the [Resource Hub](#).

Hodder Education Textbooks

Hodder Education have published the below textbooks which cover the core components of each pathway. Follow the links below for more information.

[Building Services Engineering for Construction T Level: Core](#) – published June 2022

[Onsite Construction T Level: Core](#) – published August 2022

[Engineering and Manufacturing T Level: Core](#) – due to publish February 2023

[Management and Administration T Level: Core](#) – due to publish March 2023

Assessment Update

Registrations

The registration window for the below T Level Technical Qualifications (TQs) is now open:

- [Building Services Engineering](#)
- [Onsite Construction](#)
- [Engineering and Manufacturing](#)
- [Management and Administration](#)

To register your learners, please visit the [Walled Garden](#).

The standard registration window closes on Tuesday 1 November and from Wednesday 2 November, late fees will apply.

Autumn assessment series

The standard booking period for the autumn series has now passed (30 September). Any entries for the core assessments, including the Employer-Set project (ESP), of the below TQs will now incur late fees:

Building Services Engineering
Onsite Construction

For providers who have learners booked onto the autumn series, a support webinar, hosted by Technical Advisors Rob Mallender and Paul Brown, is running on 12 October. Find out more [here](#)

[Register for webinar](#)

Summer Occupational Specialisms

Bookings can be made for the summer Occupational Specialism (OS) assessments for the below TQs:

Building Services Engineering
Onsite Construction

Bookings can be made via [Walled Garden](#). The OS assessment booking window closes on Friday 16 December, and from Saturday 17 December, late fees will apply.

Please note, the autumn series bookings and OS assessment bookings are for learners entering their second year of study only.

Marking and moderation

Our teams are currently working to finalise the T Level Marking, Moderation and Standardisation Guidance which will be made available to providers as soon as possible.

Centre standardisation materials and supporting videos for Onsite Construction and Building Services Engineering are also in progress and will be available on the Resource Hub shortly.

City & Guilds Technical Qualifications (TQs)

Onsite Construction and Building Services Engineering

Events October to December

Please find links below to events available over the next few months. These events are designed for your T Levels lead, assessors, curriculum managers, tutors and quality leads.

T Levels Week, 10-14 October

During 10-14 October we will be celebrating T Levels Week and we invite you to join us. The week is a great opportunity to highlight T Levels as a high quality and world-class qualification, and to help raise awareness of them in your area and across the country.

Join the conversation on social media using the hashtag [#TLevelsWeek](#).

Colleges Week, 17-21 October

Organised by the AOC, Colleges Week is now in its fifth year. This year the focus is on Staff, Students and Skills as this is what makes a college.

We'll be getting involved throughout the week, celebrating the fantastic colleges we work with. To find out how you can get involved, visit Colleges Week 2022 | Association of Colleges (aoc.co.uk).

Look out for and use the hashtags [#LoveOurColleges](#) [#CollegesWeek](#)

ETF Update

Updates to the Professional Development Platform

Changes are coming to the Education and Training Foundation's (ETF) Professional Development Platform (PDP).

As part of the annual review of the training needs analysis functionality on the PDP, the ETF has identified a number of ways to make the site more user friendly, easier to navigate and better able to point users to the information they need.

To make these updates, access to the T Level Professional Development (TLPD) area of the PDP site will need to be removed for around three weeks in August 2022. During that time, users will not be able to view their existing training needs analysis results, book upcoming courses or browse T Level resources.

However, the ETF has published a number of ways to ensure that users can continue their T Level CPD throughout the summer – but they need to prepare now.

[Find out more](#)

T Level role and route specific training

If you are delivering – or planning to deliver – T Levels, the T Level Professional Development (TLPD) offer from the ETF has been commissioned by the Department for Education and developed with experts in collaboration with learning providers and employers, to support you.

T Level role and route specific training offers a range of pedagogical and subject-specific courses, modules, workshops and other activities, structured to meet specific professional development needs.
