

## The latest news and insights

## T Level Quarterly Update

**T-LEVELS** | 

Welcome to the latest edition of our quarterly e-bulletin.

We're excited to share lots of news and updates around T Levels in this edition. You can jump to the T Level areas that you are (or will be) delivering.

As we get closer to September 2022, the first teaching will commence for the T Level Technical Qualifications (TQs) in Management and Administration, Engineering and Manufacturing. We'll also have new construction centres delivering the Onsite Construction and Building Services Engineering (BSE) for the first time. Our in-delivery centres will be taking their learners into their second year. Hence, all our activities continue, and we want to make sure that we are providing you with plenty of opportunities to access all the support as part of the preparing to deliver phase.

We recently produced a new Teaching, Learning and Assessment guide, now published on our [dedicated webpage](#), is helpful for anyone delivering the T Level TQs. It provides practical tips to support the delivery of T Levels and the core components of the TQs. It also outlines the key design principles of the assessment.

Please continue to visit our [Resources and Support Hub](#) for the latest information.

### This quarter's highlights

#### Provider Approval Process

The approval window opened in February, for eligible providers to submit their application for the following City & Guilds T Level TQs, available for teaching commencing from September 2022:

- 8710 T Level Technical Qualification in Building Services Engineering for Construction
- 8711 T Level Technical Qualification in Onsite Construction
- 8730 T Level Technical Qualification in Engineering and Manufacturing (Core)
- 8712 T Level Technical Qualification in Maintenance, Installation and Repair for Engineering and Manufacturing
- 8713 T Level Technical Qualification in Engineering, Manufacturing, Processing and Control
- 8714 T Level Technical Qualification in Design and Development for Engineering and Manufacturing (8714)
- 8715 T Level Technical Qualification in Management and Administration

Providers are encouraged to submit their applications as soon as possible to ensure they are approved in time for the first teaching in September.

For more information, we recommend watching the [Provider Approval videos](#) on our resource hub page, located within the approval and quality assurance section. The approval application and guidance documents, including curriculum planning materials, are also available on the Resource hub area.

#### Tutor resources update

Hodder Education will publish paid for textbooks to accompany the core components for the following T Levels:

- [Onsite Construction](#) – due to be published May 2022
- [Building Services Engineering for Construction](#) – due to be published April 2022
- [Engineering and Manufacturing](#) – due to be published October 2022
- Management and Administration – sample chapters will be available closer to the publication date, March 2023.

We've a wide range of free **tutor resources** to support Onsite and BSE centres - available on our [Resources hub area](#). All the resources will be editable, so you can adapt them according to your individual teaching requirements.

**Coming in August 2022: New tutor resources** for the Engineering and Management core components, to cover:

- **schemes of work** – to help tutors plan teaching sessions
- **PowerPoints** – tutors can use to present key knowledge to learners
- **worksheets** – various activities that tutors can use to engage learners in and out of the classroom
- **multiple choice questions** – to check learners' understanding of what has been taught in each session.

#### Assessment update

**Assessment windows and exam dates consultation - have your say!**

We're seeking feedback on the draft assessment key dates for the following T Level TQs for the 2022/23 and 2023/24 academic years.

- Building Services Engineering for Construction (8710)
- Onsite Construction (8711)
- Maintenance, Installation and Repair for Engineering and Manufacturing (8712)
- Engineering, Manufacturing, Processing and Control (8713)
- Design and Development for Engineering and Manufacturing (8714)
- Management and Administration (8715)

Feedback is sought on the assessment entry and assessment delivery windows from those involved in the delivery of these TQs: Tutors, Curriculum Managers and Exams Officers.

[Review the key dates schedules \(Draft\)](#)

[Complete the feedback form](#)

Or scan the QR code to complete the feedback form.

The deadline to provide feedback via the above form is **Friday, 13 May 2022**. We'll publish the finalised key dates schedules on our T Level Resource hub area from 1 July 2022.

**Building Services Engineering and Onsite Construction Employer Set Projects (ESP)**

For learners taking the current live ESPs, the deadline for candidate evidence submission to City & Guilds is Friday 13 May 2022. We'll soon provide detailed guidance on how to upload the candidate evidence to Walled Garden.

**Sample ESP documents**

Within each qualification page for [Building Services Engineering \(BSE\)](#) and [Onsite Construction](#) there are sample ESP documents available. It's important to note that these documents are samples only. They can be used for formative assessment but must not be used for the Summer 2022 series. They are not the live assessment for the summer series.
