# Centre-Assessed Components - Practical Assessments

For centres who deliver Technical Qualifications which have practical centre assessed component elements, you are required to inform City & Guilds with the dates these will be carried out on as you may be subject to a Short Notice Visit or a Planned Visit.

This is a requirement from Ofqual to ensure each awarding organisation (AO) has a CASS strategy in place to ensure that centre assessed standards in every qualification are scrutinised to ensure the validity and reliability of results.

This document highlights the qualifications which have centre assessed components and the practical unit.
