This course has been updated in-line with the changes to BS7671: 2018 in Amendment 2 and in the associated fifth edition of the IET Code of Practice for Electric Vehicle Charging Installation.

This course is primarily aimed at small scale EV charging installation.

Content covered:

- **Unit 1:** Overview of regulatory requirements for the provision of EV charging points
- **Unit 2:** Overview of charging modes and types of equipment
- **Unit 3:** General assessment prior to EV system design and installation
- **Unit 4:** Methods of providing earthing arrangements and shock protection including open PEN conductor
- **Unit 5:** Private domestic and small commercial installations
- **Unit 6:** Prosumers electrical installations
- **Unit 7:** Inspection, testing and maintenance requirements
- **End of course assessment:** To check understanding of content covered in the units

Note: The units listed above (1-7) relate to the way the e-learning has been structured. They do not reflect the unit structure of the qualification itself that you will find in the qualification handbook.

Why choose SmartScreen?
