- Sample schemes of work – an ideal guide for tutors and centres to ensure that all the learning requirements are covered when delivering the qualification.
- Sample lesson plan – an ideal guide for tutors which can provide inspiration and save valuable preparation time.
- Handouts – provide a convenient way of providing key information to learners in a classroom setting. They save tutors time and give learners the confidence that they are receiving the information they require.
- Revision worksheets – can be used by learners to review and implement what they have learned. Worksheets can be projected onto the whiteboard or downloaded for tutors to make changes and adapt to their delivery style and learner needs.
- Activities – an outstanding range of training activities that will keep learners engaged and motivate them to learn more.
- PowerPoint presentations – slide decks that allow tutors to save valuable preparation time, while still delivering a professional and engaging presentation in the classroom.
- Video e-learning: Some of the units in this package are supported by video e-learning. This resource combines clear instructional videos with interactive questions to test learner knowledge. Each topic is split up into a series of 'lessons' dealing with consultation, routine and aftercare. Within each 'lesson' a high-quality salon video will demonstrate the skills learners need, with distinct chapters to allow easy navigation. Multiple choice questions pop up throughout each video to ensure the learner has watched and understood the material. Learners who answer incorrectly are given a useful hint and the ability to re-watch the relevant part so that they can reattempt the question. Concise and informative feedback is also provided for each question to consolidate learner understanding. Upon achieving the pass mark for a lesson, learners will be given the option to watch the video without questions, allowing them to revise the material without interruption. Versions of the videos without questions will be available to tutors for teaching purposes.
