Resources

Workplace Skills is a SmartScreen enhanced package designed to help learners and apprentices develop the soft skills and behaviours they need to be work ready. Developed for learners working at Level 2 or above, these resources have been designed to support independent study but can equally be used as part of a practitioner-led teaching and learning session.

- Quizzes – these interactive quizzes provide learners with an opportunity to test their understanding or identify their own strengths and weaknesses.

- 'Rate it' – as the name implies, these resources ask learners to rate how well they think somebody has done. They then get the opportunity to compare their thoughts to the expert!

- Scenarios – in these resources learners make decisions around a specific scenario, learning from feedback and tips as they go along.

- Tasks – these resources are designed to help learners put their newly acquired knowledge into practice with feedback provided every step of the way.

- PDFs – simple but effective resources, with some taking the form of 'Top tips' and others ask the learner to complete an activity.

- Videos/animations – short, engaging, and often entertaining resources which use innovative techniques to introduce learners to a skill area or topic.
