Ref: 600/5497/9 Level 3 Diploma in Plumbing Studies

Dear Matthew

We provide our support as the professional industry body within the Plumbing sector, as we feel the following qualifications are suitable for a young person between the ages of 16-19 studying full time and will give that young person an advantage when applying for a job or progressing onto an apprenticeship.

We, APHC, support the inclusion of, 6035 Level 3 Diploma in Plumbing for the DfE 2016 performance tables in the Technical Level category.

The Association of Plumbing and Heating Contractors (APHC) Ltd. is the leading trade association for Plumbing and heating businesses within England and Wales. Since 1925, APHC Ltd has represented sole traders to large companies who run profitable and professional businesses.

Yours sincerely,

A handwritten signature in black ink, appearing to read "J. Thompson", followed by a long horizontal line.

John Thompson
Chief Executive Officer
