2 Centre requirements

Approval

To offer these qualifications, new centres will need to gain both centre and qualification approval. Please refer to the City & Guilds Centre Manual for further information.

Centre staff should familiarise themselves with the structure, content and assessment requirements of the qualifications before designing a course programme.

Resource requirements

Centre staffing

Staff delivering these qualifications must be able to demonstrate that they meet the following occupational expertise requirements. They should:

- hold a SVQ in Management at SCQF Level 11 or equivalent
- have recent relevant experience in the specific area they will be assessing
- have credible experience of providing training.

The assessor must:

- hold, or be working towards a valid assessors' qualification based on LSIS, formally LLCC, Learning and Development National Occupational Standards (2010)
- have an in-depth technical knowledge of the qualification
- complete a minimum of 30 CPD hours per annum (1 Sep-31 Aug).

Centre staff may undertake more than one role, eg tutor and assessor or internal verifier, but cannot internally verify their own assessments.

Please refer to the Assessor Guide document for details on the role of the supervisors and managers as witnesses.

Learner entry requirements

City & Guilds does not set entry requirements for these qualifications. However, centres must ensure that candidates have the potential and opportunity to gain the qualifications successfully.

Age restrictions

The SVQ in Management at SCQF Level 11 is not approved for use by candidates under the age of 16, and City & Guilds cannot accept any registrations for candidates in this age group.

Centres and candidates should be fully aware of minimum age requirements and any implications on completing assessments.

3 Delivering the qualification

Initial assessment and induction

An initial assessment of each candidate should be made before the start of their programme to identify:

- if the candidate has any specific training needs
- support and guidance they may need when working towards their qualifications
- any units they have already completed, or credit they have accumulated which is relevant to the qualifications
- the appropriate type and level of qualification.
- if the candidate understands the people involved in the assessment and how to evidence their performance at work and compile a portfolio of evidence.

We recommend that centres provide an induction programme so the candidate fully understands the requirements of the qualification, their responsibilities as a candidate, and the responsibilities of the centre. This information can be recorded on a learning contract.

Recording documents

Candidates and centres may decide to use a paper-based or electronic method of recording evidence. Copies of City & Guilds recording documents can be downloaded from the City & Guilds website.

City & Guilds endorses several ePortfolio systems, including our own, Learning Assistant, an easy-to-use and secure online tool to support and evidence learners' progress towards achieving qualifications. Further details are available at: www.cityandguilds.com/eportfolios.

City & Guilds has developed a set of Recording forms including examples of completed forms, for new and existing centres to use as appropriate. Recording forms are available on the City & Guilds website.

Although new centres are expected to use these forms, centres may devise or customise alternative forms, which must be approved for use by the external verifier, before they are used by candidates and assessors at the centre. Amendable (MS Word) versions of the forms are available on the City & Guilds website.

4 Assessment

Summary of assessment methods

Candidates must:

- have a completed portfolio of evidence for each unit

Time constraints

There are no fixed periods for completing the SVQ in Management however most participants take between six months and one year.

Qualification registration is valid for four years.

Assessment strategy

An Assessment Strategy for the SVQs in Management has been developed to ensure greater clarity to the assessment of SVQs; to ensure their quality; and also promote confidence in those who gain them. This document is based on the Assessment Strategy and NOS and provides information on the requirements of the Assessment Strategy for centres. The full Assessment Strategy document is available to view and can be downloaded from the SQA Accreditation website at: [Assessment Strategy Team Leading and Management.doc](#)

Recognition of prior learning (RPL)

Recognition of Prior Learning (RPL) is an assessment process which makes use of evidence of a learner's previous non-certificated achievements to demonstrate competence or achievement within a unit or qualification. RPL allows an individual to avoid unnecessary learning, meaning that they can present for summative assessment without repeating learning in areas where they will be able to show that they can meet the learning outcome(s).

It remains the role of assessors and quality assurance staff to ensure that evidence for RPL meets the relevant outcomes of the qualification.

The Centre Manual contains further information on RPL.

5 Units

The qualifications comprise of a number of units. A unit describes what is expected of a competent person in particular aspects of his/her job.

These units each have the following:

- **Unit overview** — this provides information on what the unit is about, who the unit is intended for. This section of the unit is for guidance.
- **Skills** — this section lists the main generic skills which are needed to perform effectively
- **Performance criteria** — this section describes the activities managers are expected to perform.
- **Behaviours** — this section outlines the soft skills which managers need in order to carry out their role effectively. These behaviours are crucial for an effective manager and should fall out naturally from performance. However, there is no longer a requirement to assess behaviours as part of the SVQs in Management.
- **Knowledge and understanding** — this is split into general Knowledge and Understanding; industry /sector specific Knowledge and Understanding; and context specific Knowledge and Understanding. This section defines the Knowledge and Understanding required to carry out the role effectively.

Unit evidence requirements

In order to achieve any unit, the candidate must demonstrate that they meet all its requirements.

This details the types of, and a minimum amount of, evidence candidates must produce to demonstrate competence.

Please note that simulation is not allowed for any unit, unless, in exceptional cases, the External Verifier agrees.
