60080541 Level 2 Certificate in Construction Operations - General Construction

OVERVIEW

For those interested in working in the construction industry, this qualification is ideal for developing your skills and knowledge of general construction operations. You will learn about the industry, including the principles of constructing buildings, and about the types of information used in building design and construction. You will learn about health, safety and environmental issues faced on construction sites, and how to communicate with others on the job.

You will also learn knowledge and practical skills about general construction operations, including how to:

- Construct site protection barriers
- Lay domestic drainage
- Construct foundations, slabs and paths in concrete

This is a Framework qualification that consists of five units of assessment. There are no entry requirements for this qualification – it is available to anyone over the age of 16 that is interested in learning more about general construction operations. You will be seeking to work as a general construction operative on construction sites.

WHAT COULD THIS QUALIFICATION LEAD TO?

This qualification helps prepare you for work in the construction industry, with a specific focus on general construction operations. You are likely to progress on to study the Level 2 NVQ, either as part of an apprenticeship, or as a standalone qualification. Complementary NVQ qualifications are:

- Level 2 NVQ Diploma in Construction Operations and Civil Engineering Services

WHO SUPPORTS THIS QUALIFICATION?

We are grateful to have specific support from the following City & Guilds Construction centres:

Bridgwater College
The Manchester College
South & City College Birmingham

We are also grateful to have support for this qualification from the Federation of Master Builders.
