

# NEW APPRENTICESHIP STANDARDS

**City &  
Guilds**

## PROGRAMME APPROVAL PROCESS

### 9648 DIGITAL INDUSTRIES PROGRAMME

---

#### All Approved City & Guilds Centres

All approved City & Guilds centres, regardless of whether or not they are delivering current qualifications in the IT and Digital sector, must complete a Qualification Approval form in order to gain approval to deliver any of the role pathways within the 9648 Digital Industries Apprenticeship programme. This includes the on-programme qualifications and end-point assessment (EPA). There is no fast-track process available to centres delivering current IT and Digital qualifications and SASE apprenticeships.

Further information on the qualification approval process is available in section 2.6 of the *City & Guilds Centre Manual*.

---

#### Centres not approved by City & Guilds

Organisations that are not approved City & Guilds will need to apply for approval as a City & Guilds centre to gain approval to deliver any of the role pathways within the 9648 Digital Industries Apprenticeship programme. Approval is based upon the ability to meet the criteria specified in Our Quality Assurance Requirements. Centre approval includes one qualification approval. Once approved, centres will be able to add to the City & Guilds qualifications they wish to deliver by completing the qualification approval process.

Further information on the centre approval process is available in section 2.5 of the *City & Guilds Centre Manual*.

**Please note: The approval process can take up to 30 working days from receipt of a completed application.**
