

FAQs for 4229

This document is an opportunity for City & Guilds to reply to commonly asked questions that are received about our assignments. It will be updated regularly to give centres information that will help in the delivery of our assignments.

Question: My candidates will struggle to answer questions that are related to legislation and standards. What can I, as an assessor do, to help them answer these questions?

Answer: If your candidates are unable to answer this type of question in a closed assessment condition, it is possible for the assessor to draw the necessary information from the candidate by asking questions and having conversations with them. The assessor can write their answers down. This information can be found in the Assessor Guidance on the website.

Question: Where can I find the passwords to open the assignments?

Answer: The passwords can be found on the walled garden under the relevant subject page.

Question: If as a Centre we devise our own assignments for the knowledge assessment criteria within competency units, do we have to devise our own marking criteria and then still assess the learners as Pass/Refer/Fail for the assignment in line with the knowledge only City and Guilds assignments?

Answer – Yes
