2/2/2015

Dear Mr Robottom,

Level 2 Certificate in Clinical (3051-02) (VRQ)

Level 3 Certificate in Clinical (3051-03) (VRQ)

Many thanks for taking the time to discuss your plans for the new City and Guilds "Clinical Skills" qualifications.

I have shared these with the Taunton Deane Federation of General Practices which is a subgroup of Somerset Clinical Commissioning Group. We are a Federation of 14 GP Practices representing 110,000 patients in the Taunton area of Somerset.

I am delighted to give you our full endorsement and support for their continued development and implementation. These clearly identify a gap in the current provision of Care and Health in the community and would address this perfectly.

I have also shared the plans with Somerset Clinical Commissioning Group who are the lead commissioning organisation for Health in Somerset and hope that they, too, would give you their support.

Yours sincerely

Dr Will Chandler

Chair TDFGP
