## Read the email.

The image shows a screenshot of an email client window. The title bar reads "Message (HTML)". The menu bar includes "File", "Message", "Insert", "Options", "Format Text", "Review", and "Tell me what you want to do...". The email header shows "To: City Club", "Cc:" (empty), and "Subject: Day out". A "Send" button is visible on the left. The main body of the email contains the following text:

Hi All

I have been thinking about our plans for a day out together. We had talked about going to see a show and stay in a hotel. What do you all think about going on a balloon ride instead? I have looked at some websites and they all offer the same thing. The only difference is the price, so I am sending you the link to the cheapest.

Here's why I'm suggesting something different:

- We would never forget it.
- It would be a really special day.
- We would have lots of time to chat.
- It would be fun.
- We could have a meal together afterwards.
- It would cost no more than a show and hotel.

We could go either early morning or early evening. There are no flights in the middle of the day or after dark.

As you can see it looks like a really good idea. Check out the website **www.skyhigh.com** to find out about balloon rides. When you reply, click on 'Reply All' so we can all see what you think.

## On the day

Phone to check that we are flying. We cannot fly in bad weather.

When you arrive you will meet the pilot and enjoy drinks and chocolates while he tells you what to expect.

You will have the chance to help inflate the balloon if you want to.

We cannot promise where you will go as this depends on the weather.

After about forty-five minutes in the air the pilot will start looking for somewhere to land.

The ground crew will follow your flight and take you back to your car.
