

## Guidance Notes for Onscreen Entry 1 Writing Assessments

This paper has been adapted so that candidates can complete their answers onscreen, without the need for access to a printer. This has been done to help candidates who need to complete their work electronically from home or remotely.

**Please note that in Entry 1 Writing papers, Activity 1 cannot be completed onscreen.** Centres should instruct candidates to complete the Activity 1 questions on hard copy, which they could submit, for example, via a photograph.

The mark scheme / assessor pack has also been adapted for onscreen completion should assessors wish to do so. Otherwise, it can be printed out for completion.

Where relevant, any onscreen typos, for example 'teh' instead of 'the', will be penalised as spelling errors.

Please note that a paper-based version of all the 4748 Entry English assessments is also available on the website should centres choose to print copies for candidates to complete on hard copy.
