Cheap and Easy Design Tips for Your Home

By Lorraine, 30 July

Whether you've just moved to a new house or you're looking to freshen things up, there are some well-known design tricks you can use to add beauty to your home. Sometimes the smallest things make the biggest difference. It could be adding a mirror, a painting, a lamp or even a plant. Maybe you want to brighten your walls or add some colour to your favourite room. Take a look at these simple but clever design tips and see how they can inspire you!

Go green

Add plants to your living space. You can add them to any room, small or large. Plants are a low-cost way to add colour to your home. Not only are plants beautiful but they clean the air and can help clear dampness from the air too. No home should be without these wonderful greens!

Use mirrors to add instant light

Mirrors are a great way to add light to any space. They can also be used to make a small space feel larger. For bigger rooms or any room without much natural light, mirrors positioned directly opposite windows will add instant brightness. Mirrors can also be used to fill empty wall space instead of pictures. You can use large or small mirrors to increase light and interest to your living space.

Answer the questions about the text.
